

peace camp AT LAKENHEATH

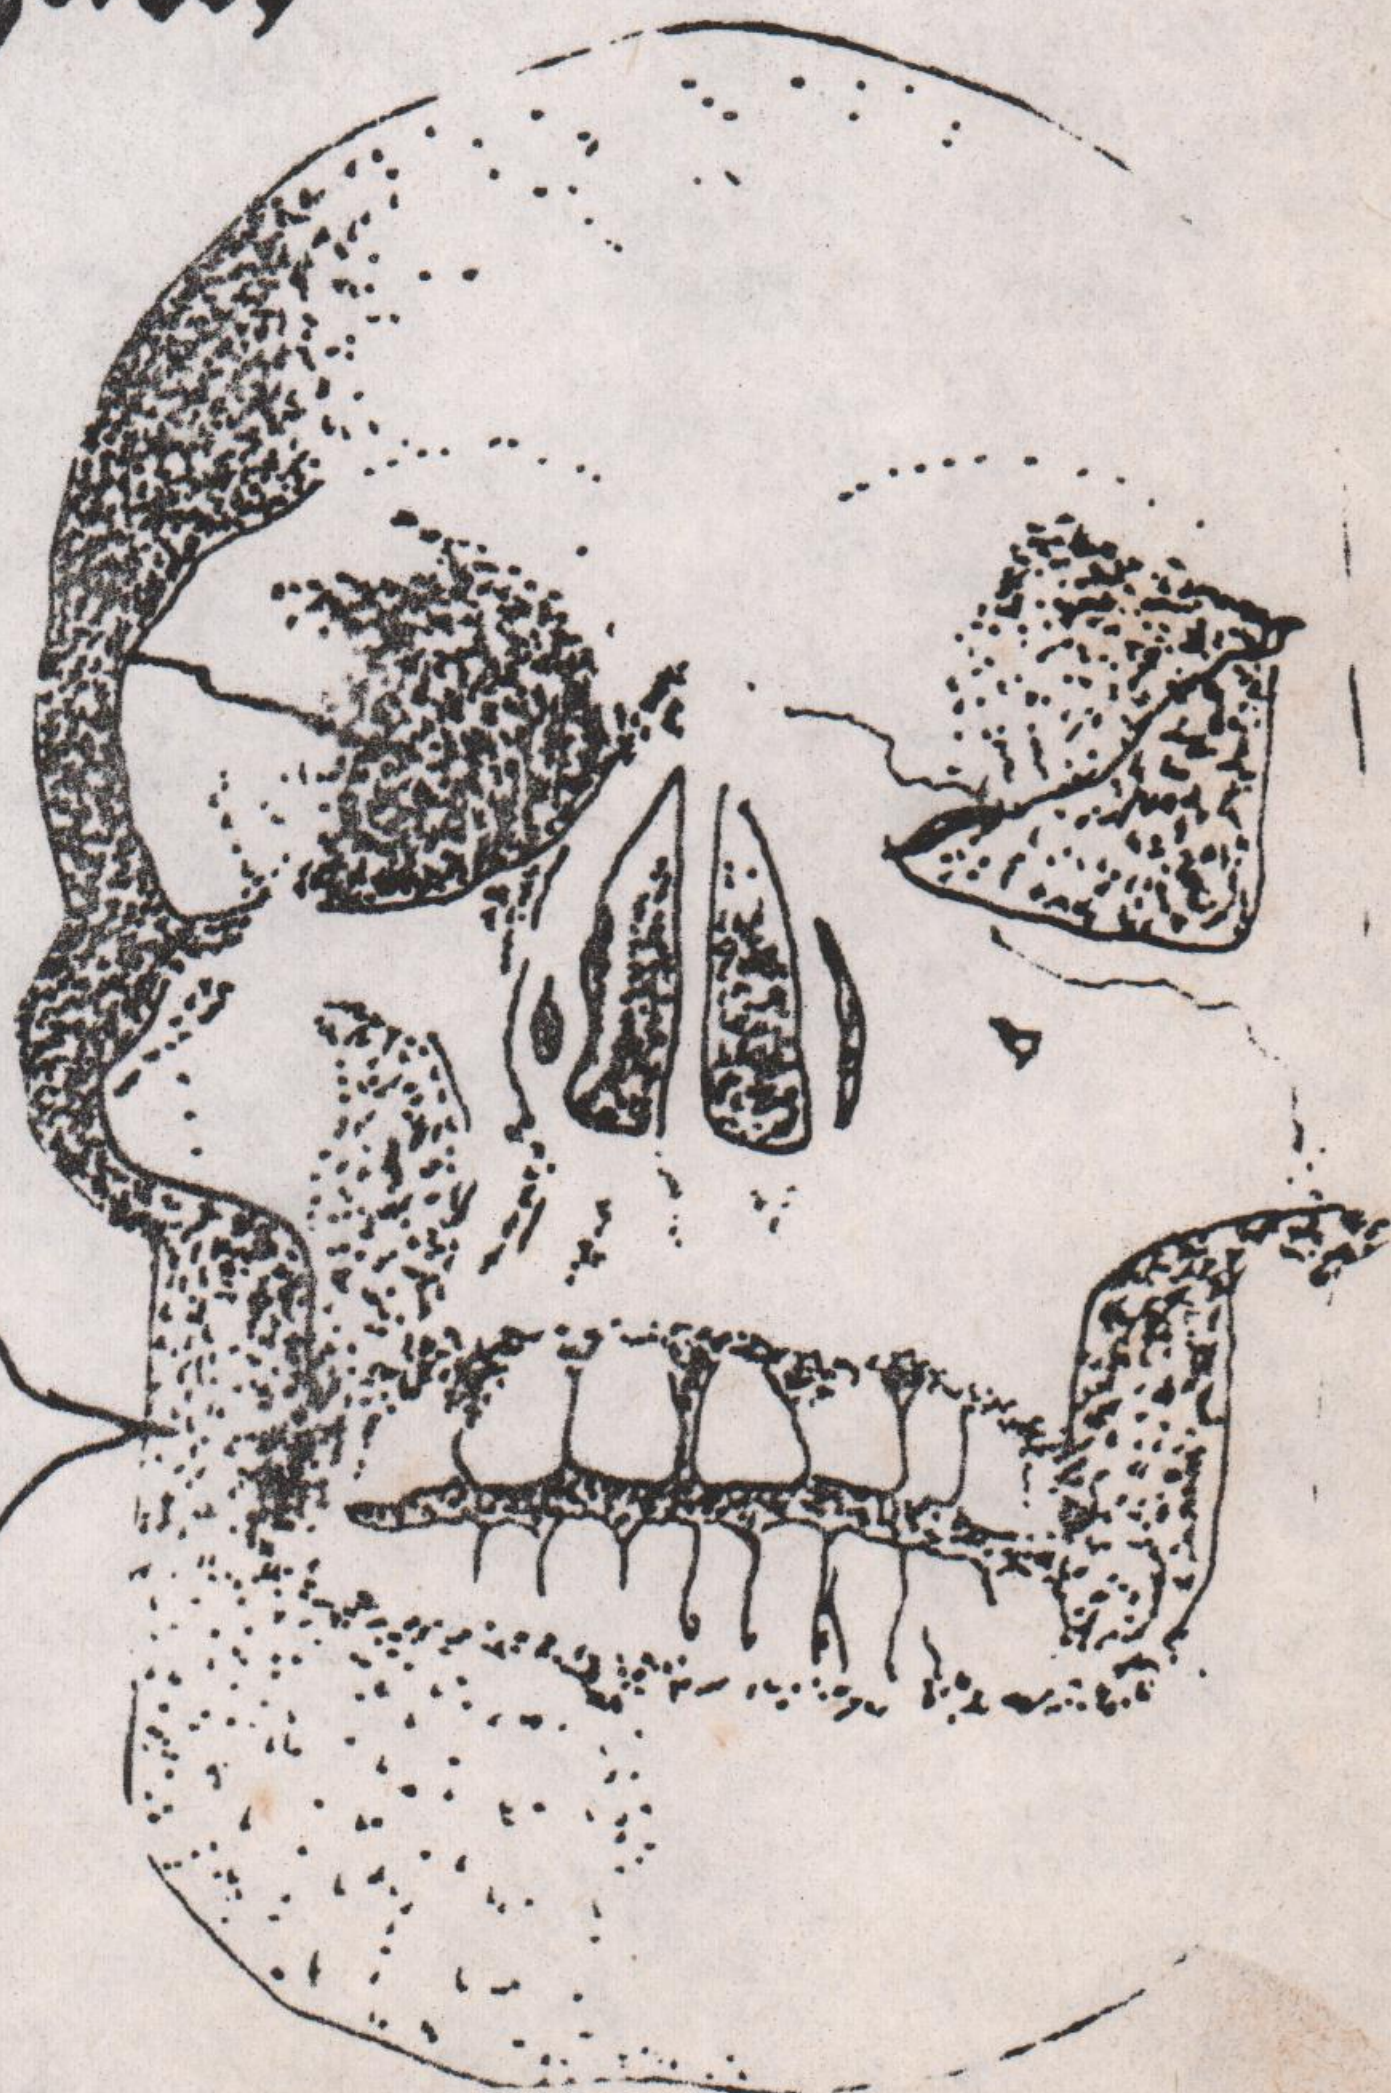

POPPY

At least the poppy, blood red, was
of nature's will. That flower
Perfecting by the barbed wire
fence - must be insulted by your
Scented poor pretence.

No!

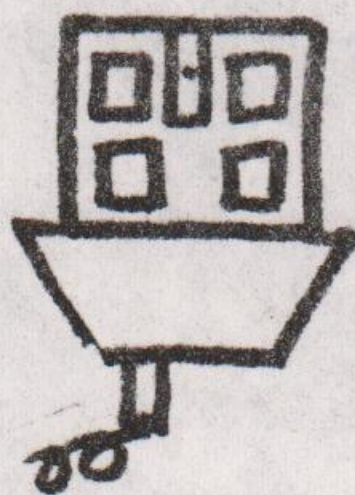

It's a new year but there's nothing new,
Women and men still hide from the truth.
Mother's scars grew last year,
Missiles haven't flown,
We're still in FEAR.

I USED TO BE
APATHETIC,
BUT NOW I
DON'T CARE

THE MOUSE HAS A MACHINE GUN.....

EVERY DAY YOU FLY YOUR PLANES
 YOU'RE AFRAID OF US
 YOU MEND THE BARBED WIRE FENCE
 YOU'RE AFRAID OF US
 YOU PLAN TO BOMB THE RUSSIANS
 YOU'RE AFRAID OF US
 YOU WEAR YOUR KHAKI UNIFORMS
 YOU'RE AFRAID OF US
 BETTER DEAD THAN RED
 YOU'RE AFRAID OF US
 YOU SHOP AT THE DUTYFREE SHOP
 DR PEPPER AND BIG MAC
 YOU'RE AFRAID OF US
 BARBECUE IN EVERY YARD
 YOU'RE AFRAID OF US
 FLASHING PANIC FAIRY LIGHTS
 YOU'RE AFRAID OF US
 FINGER SHAKING ON THE TRIGGER
 YOU'RE AFRAID OF US
 PROTECT YOUR CHILDREN'S MIND FROM DANGER
 YOU'RE AFRAID OF US
 ANNOUNCE ANOTHER NUCLEAR ALERT
 YOU'RE AFRAID OF US
 WATCH THE BIRDIE, THE TV SCREEN
 YOU'RE AFRAID OF US
 HIGHLY TRAINED FOR THE MACHINE
 YOU'RE AFRAID OF US
 ROD AND GUN CLUB
 YOU'RE AFRAID OF US
 THE ALL-DEFINING AMERICAN DREAM
 YOU'RE AFRAID OF US
 BIG MEN, LITTLE WOMEN,
 YOU'RE AFRAID OF US
 BOLT ON THE DOOR
 YOU'RE AFRAID OF US
 WALL AROUND YOUR MIND
 YOU'RE AFRAID OF US
 BARBED WIRE AROUND THE BASE
 YOU'RE AFRAID OF US
 BLINDFOLD ON YOUR EYES
 YOU'RE AFRAID OF US
 PEACEKEEPER ON THE GATE
 YOU'RE AFRAID OF US
 FINGERS IN YOUR EARS
 YOU'RE AFRAID OF US
 YOU DEAL IN FEAR
 SO YOU'RE AFRAID OF US
 PARANOIA
 YOU'RE AFRAID OF US
 PEACE AND FREEDOM
 AFRAID OF THEM.

DEFINE YOUR CHILDREN
 BETRAY THEIR TRUST
 YOU'D KILL US ALL
 BECAUSE YOU THINK YOU MUST
 THINK FOR YOURSELF
 RENOUNCE THE LIES
 LAY DOWN YOUR WEAPON
 AND OPEN YOUR EYES.

WE STAND FOR PEACE
 YOU PREPARE FOR WAR
 WE AIM NO WEAPONS
 YOU ASK FOR MORE
 YOU PRETEND NOT TO SEE US
 BUT YOU KNOW WE'RE THERE
 CLOSED DOOR, CLOSED MIND
 DON'T QUESTION, DON'T CARE

YOU THREATEN TO SHOOT
 TO STUN, TO KILL
 DISPLAY YOUR STRENGTH
 DO YOU THINK IT WILL?
 YOUR STRENGTH IS WEAKNESS
 YOUR POWER IS FEAR
 AND IT'S YOU THAT'S FRIGHTENED
 NOT US OUT HERE.

YOU'VE GOT A WEAPON
 YOU THINK IT MEANS POWER
 POINT IT AT US
 WATCH US COVER
 DOES IT MAKE YOU FEEL BIG?
 DOES IT MAKE YOU FEEL STRONG?
 WHILE YOU'VE GOT US COVERED
 DOES IT MEAN WE'RE WRONG?

..... Now The Mousehole Is A Prison.

We do not inherit the earth from
our ancestors -
We borrow it from our children

Nobody Likes An Anarchist

This is not. This is not an article. This is not an article telling you how to save the world, or how to best use your life working for peace. This is not an article telling you how to think.

Only you can think. Only you / you can / you think / only think / can you think?

Or more directly do you subconsciously let others think for you - your parents / your T.V. / your boss / Your local P.C. / Your vicar / Your newspaper / Your Radios / Your husband / Your general / Your School Teacher / Your governments.

Their Institutions, but thats a cop out - who are they - they are the people 'on top', but thats another cop out because compared to starving children / battered women / cannon fodder soldiers / Tortured Animals - You're on top in your comfortable easy life.

All of us / All of us know / All of us know the situation. The situation you refuse to think about! Because you then start to realise "It's" wrong. Your wrong - and if you're wrong You've got to change, sorry to tell you that one but I dont want to die! To DIE. To be dead. To stop existing.

What is a system?

A system is a Plan, a set of rules and morals enforced on everyone from birth, to make them behave in a certain manner. You're schooled by it, worked by it, paid a pittance by it and then retired by it. Meanwhile passing the game on to your children. A good way to run the world???

You / You know / You know it's not, but you dont even admit it to yourself. You're scared. While your sitting being scared hiding behind your wet beliefs / CND badges (badges dont change the world) And half hearted Theories on How To Stop The Bomb. The system carries on murdering People. Just to maintain Momentum, but its gaining momentum thats why I'm Scared. Dont talk to me about getting rid of the weapons without getting rid of the system which creates the need for them. I dont want your liberal / Marxist / Nicey Nicey / Socialist / Bigoted / Doamatic / Escapist / Theorist ... Ideas and dreams I want change - I want truth and I'm bored of waiting for you to face up to it.

power

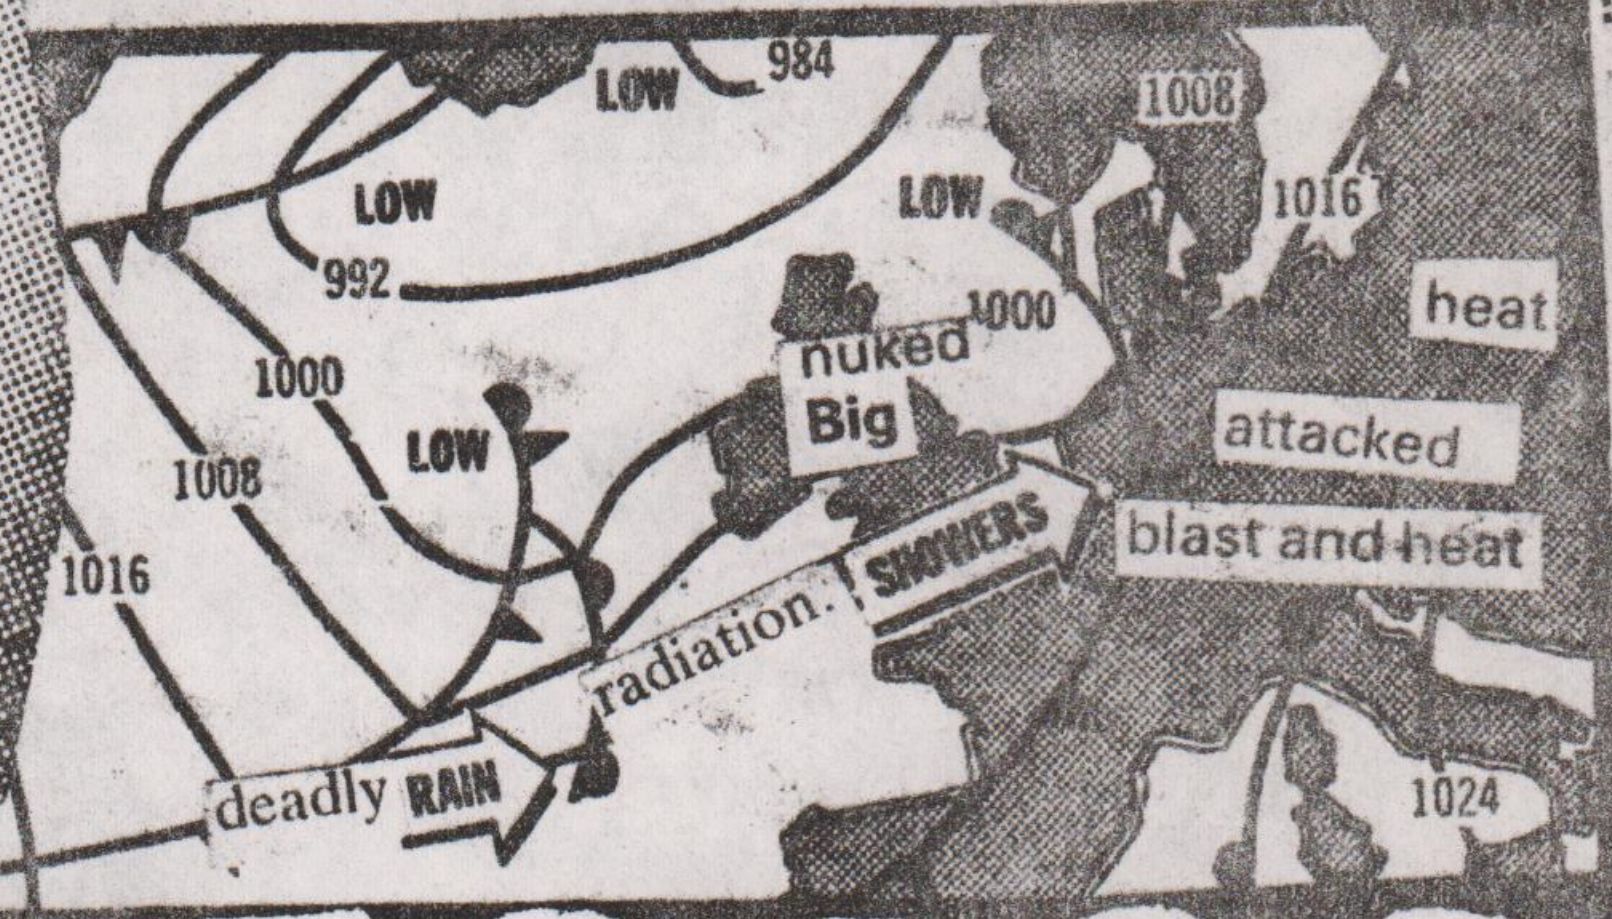

And while hundreds of the Task Force men are back home with their families, one Brandon woman was still excitedly waiting to greet her husband on Monday. Mrs Zona Turnbull, of 22 Kingfisher Drive, was due to meet her husband Cecil when he returned to Southampton on board the hospital ship Ugan. "He has been away four months but years," said Mrs Turnbull, who was family in Leices after meeting her

Now if we didn't know him better we'd say he'd been reading too many fairy stories

forecast up to Tuesday

Other Brandon lads will soon be returning to their ships or bases after their leave. Nineteen-year-old Marine Commando Mark Cavanagh, of 2 Church Road, will be returning to his Arbroath base in ten days time. A member of the 45 Commando Group, Mark was among troops who occupied the mountains around Port Stanley before the capital was finally taken. Radar operator Mick Green, of 15 White Hart Lane and mechanic Richard Thompson, of 5 Lilac Close, will be joining their ship HMS Broadsword on Sunday. They will be in port at Plymouth until September when they are likely to sail to calmer waters off America and the West Indies.

The Vulcan squadrons No 9 moved to RAF Honington in 1980 and will be equipped with the controversial new multi-billion pound Tornado bomber. Squadron 617's motto is "After me: the Deluge."

has agreed in plutonium to the United states, "subject to commercial negotiations". The government describes this as "civil plutonium", for "civil use" by the USA, but the overriding reason for the deal is that the USA is acutely short of the plutonium it needs for its nuclear weapons programme.

Commercial

Militarism and Authority

Opposition to militarism

an important element in anarchist propaganda, for what are the essential elements of it? They are OBEDIENCE, VIOLENCE, NAZISM, the very making freedom In the 1909s there was a of authority and since that

The roaring dragons of hakenhath
 Are flying overhead
 While Yankee boys play wargames
 My children lie in bed
 Safe and secure within the love
 Their mum and dad provide
 What would they think my little ones
 If they had known I cried
 Cried for the implications
 Those roaring engines make
 Their dummy nuclear warheads
 So many lives to take
 Who will know when play is over?
 For our daring Yankee boys
 Who will tell the game is over?
 When their weapons are not toys
 One day these dandy aircraft
 Will fly to distant shores
 Destroy our fellow humans
 The choice will not be yours
 By then the Yankee Generals
 Will have taken your control
 And your beloved Britain
 Will become a massive hole
 So think on this you people
 While your offspring lie in bed
 If Yankee planes fly overhead
 We may soon all be dead.

Louise, pregnant with poppy, now age 3 weeks.

What goes on, isn't really there.
 There's a new advert,
 to show you that they care.
 All the starving children,
 Can wait a little while,
 Sit in front of the t.v.,
 And watch the ladies smile.

NUCLEAR POWER - IT'LL COST A BOMB

A lot of people have heard the environmentalist arguments against nuclear power, and, whilst these are all incredibly important, I think it would be worthwhile to shift the debate to look at it in a totally different way: the excuse that nuclear power gives the state to suppress freedoms. Nuclear power makes for a more centralized state. An entirely secret police force, to protect the uranium from theft for bomb manufacture, also have the knack of sealing the public from what is going on inside the power stations. It seems ironic that the police force are primarily there to stop terrorists getting hold of the bombs, while at the same time the state is using the fast breeder reactors to increase its ^{nuclear} stockpile. The thought of terrorists owning bombs is supposed to be frightening, but the state owning the bombs is supposed to be reassuring! It seems the label "terrorist" depends on which side of the fence you happen to be on. I have no illusions about dying a noble death. I don't care whether I die from a trigger happy Reagan's whim or for some violent -rebels' dream. I want to live.

Look at the way alternative energy sources are shown to be impractical. Anything not "nuke" just does not work. With nearly all of the alternative energy sources you don't need a police force to protect it and its resources will last as long as the earth does. The alternative sources aren't being researched very widely because basically they don't involve huge profits and they aren't run by a handful of people at the top, they are run by a community. They breakdown the monopoly of multi-nationalists, NO PROFITS AND NO POWER GAMES, and they actually give the people some say!

In the event of a
nuclear attack.....

.....kiss your kids
goodbye.
